Pool installed April, 2007.

This pool has been a beautiful addition to the house. Our Friends and family as well as ourselves have enjoyed many hours in the pool. Knowing on a hot day we can jump right in (not literally) is a nice feeling. From an engineering standpoint it is a great design, very sturdy and looks sharp. We have since added on to the pool deck all around to enhance the beauty of the pool! We couldn't be happier,a great investment.
